**Fei Gao** is an associate professor in Dalian University of Technology (DUT). He received his B.S. degree in Physics in 2007, and Ph.D degree in Plasma Physics in 2011, from DUT, China. His research interests include experimental and simulation investigations of rf inductively coupled plasma, and the high-power, low-pressure rf inductively negative ion source. His research is supported by the National Key R&D Program of China and the National Natural Science Foundation of China.
