

ICMAP 2018

The 7th International Conference on Microelectronics and Plasma Technology

July 24-28, 2018 / Songdo ConvensiA, Incheon, Korea

Prof. Sooseok Choi

Jeju National University, Republic of Korea

Prof. Choi received his Ph.D. in nuclear engineering from Seoul National University in 2009. He worked for the Center for Advance Research in Fusion Reactor Engineering at Seoul National University from 2009 to 2011 as an assistant Research Professor. In 2011, he joined the Department of Environmental Chemistry and Engineering, Tokyo Institute of Technology, where he worked as an assistant professor and a Research Fellow until 2013. In 2014, he moved to Jeju National University where he is currently an assistant professor of nuclear and energy engineering. His research interest includes thermal plasma applications in material and environmental processes as well as the development of plasma torches with numerical modeling and experimental diagnostics.
