

ICMAP 2018

The 7th International Conference on Microelectronics and Plasma Technology

July 24-28, 2018 / Songdo ConvensiA, Incheon, Korea

Dr. Qiuyue Nie

School of Electrical Engineering & Automation, Harbin
Institute of Technology, Harbin, China

Dr. Qiuyue Nie, Associate Professor in Electrical Engineering, born in Liaoning, China (1982); received B.Sc. in electronic science and technology (2005) and Ph.D. in plasma physics (2010) at Dalian University of Technology, and a visiting graduate student at Loughborough University, UK, in the period; and then Postdoctoral Research Fellow at Tsinghua University; she currently works at the School of Electrical Engineering and Automation, Harbin Institute of Technology. Her research interests include experimental studies and diagnosis on the low temperature plasmas and their applications, and interaction between plasmas and electromagnetic waves. The work on low temperature plasmas and their applications has attracted broad attentions in the field with 500+ citations. Dr. Nie is members of IEEE, Chinese Society of Physics, and Plasmas & Their Applications Committee of China Electrotechnical Society.
